Saving the PowerPoint Baby

This workshop is offered for free, courtesy of The Morning Cup! Research shows that slide decks produced the way most people make them actually decrease audience understanding and retention. So why use PowerPoint or its cousins? Why not just ditch it? Research ALSO shows that slides made following a few simple principles can significantly increase audience understanding and retention. Do you want an easy way to make your audience love you (or at least breathe a sigh of relief)? Join us on January 20 at 7:00 p.m. (Eastern) for this free training to help you dodge Murder by PowerPoint. Click the link for more information.
